JZ Capital Partners Limited (LSE:JZCP.L or "JZCP"), the London listed fund that invests in US and European micro-cap companies and US real estate, has closed an investment in Oncology Services International, Inc. ("OSI"), its third investment through the Jordan Health Products ("JHP") platform.

JHP was formed in 2015 by Jordan Industries International, LLC ("JII") and JZCP to develop and execute a strategic build-up in the highly fragmented US healthcare equipment market. JZCP invested \$4.529 million in the transaction.

Founded in 1985, and based in Montebello, New York, OSI is one of the world's largest independent service and maintenance providers for radiation oncology equipment, and a leading supplier of refurbished linear accelerators, a device most commonly used for external beam radiation treatments for patients with cancer.
